These are the answers to the activities sent last week. We are not going to correct them in class because we don't know exactly when it will be. Please, check your work and in case of misunderstandings or doubts, write to our e-mail addresses.

3) Do the following activities and write the answers on your notebook:

- Reading Exercise 7

This robot can ride a bike. It works by means of sensors and wireless technology.

Exercise 8

<b>Murata Boy can do these things</b>	<b>device</b>	<b>location</b>
(2) It can receive instructions from ...	wireless receiver	back
(3) It can detect changes in ...	sensor	frame of the bike
(4) It can look straight ahead ...	camera	head
(5) It can detect walls and ...	sensor	chest

- Speaking Exercise 9

1- What can Murata Boy do?

2- How does it work?

3- How can it detect changes in the surface of the road?

4- How can it detect walls and move away from them?

5- How can it look straight ahead and move straight forward?

5) Read the text "Murata Boy" again and make a list of "palabras transparentes" and parts of the body.

Palabras transparentes: robot – sensors – technology – camera – line – object – instructions – external – correct – not – movement

Partes del cuerpo: body – head – back – chest
